

## MORE SOUTHERN BARBARITY!

The City of Mobile refuses to sell Ground to bury the Dead Soldiers of the Union! Let every Loyal Man Read!

General Morgan, at the close of his Coshocton speech, made the following startling announcement:

"In order to secure a suitable cemetery for our gallant soldiers, who fell upon the plains of Alabama, the authorities of the United States desired to purchase three acres beautifully located within the corporate limits of the City of Mobile. The tract was valuable, but the purpose was sacred, to which it was to be dedicated. It was proposed to make these three acres the honored homes of the Union dead, and there within the corporate limits of Mobile, to erect a monument to commemorate their deeds. But the authorities of Mobile refused to sell. What! refuse to sell sufficient ground to contain the bones of our absent ones—our fathers, brothers, sons? Yes, my countrymen, these Southern men did refuse to sell sufficient ground on which to bury our heroic dead—but with a magnanimity only equalled by their courage, those Southern men did by free gift convey those three acres to the United States. And the hand of the Mayor of Mobile, the hand which signed that deed of gift, had, during our unhappy war, wielded the sword of a Confederate General." [Applause.]

## Pensions.

The present pension list of the United States is about \$16,000,000 per annum, and it is estimated that the proposed changes will swell it to \$22,000,000. Should the widows and orphans of the war of 1812 be included, it will be at least \$35,000,000.—[Ex.]

This is one of the fruits of the election of Abraham Lincoln and the Republican triumph in 1860.—They necessitated measures and brought into existence a pension list nearly as great as the amount of money that a few years ago, under Democratic Administrations, defrayed the whole expenses of the Government. To this may be added \$56,000,000 for the immense regular army that has been saddled upon the country and \$25,000,000 for the Freedmen's Bureau. These are only three items making a sum nearly sufficient to have run the Government two years before the Radicals became the dominant party.

THE COMING ELECTION.—Let every Democrat and every conservative citizen, of whatever party, fully appreciate the vast interest at stake in the coming fall election. Shall we have an intelligent, patriotic Congress or another aggregation of criminality and ignorance such as the present? That is the question. If we can elect a Congress which will sustain the policy of the President, we'll soon have a restored Union with peace and comparative prosperity. If, on the other hand, the Summerites are successful, we may expect a career of violence, usurpation, bloodshed, ending in a total subversion of the Constitutional Government!—In God's name let the people awake to a sense of the danger impending.

## Judge Van Trump Resigned!

We learn from private source that Hon. P. Van Trump has sent his resignation to the Governor as Judge of the Court of Common Pleas of this Judicial District.—We also learn that a petition, signed by the members of the bar of the three counties composing the District, has been forwarded to the Governor, requesting the appointment of Hon. Silas H. Wright, to fill the unexpired term. Mr. Wright is the Democratic nominee for Judge in this District, and as his election is sure, he will doubtless receive the appointment from the Governor.—[Hocking Sentinel.]

GENERAL MORGAN, made a fine speech at Coshocton a few days ago. He demonstrated the fact, that if all the farms in the United States and in the territories, were sold at their cash value, the product of the sales could not pay the public debt! As Jay Cooke has assured us there is "a first mortgage" on all this property for this debt, it follows that no man owns the farm which is in his name! All the farms are mortgaged to the Bond Holders for more than they are worth! All our most thrifty farmers can possibly do is to meet and pay the enormous interest which annually accrues!

We are now prepared to do Job work with neatness and dispatch. Give us a call.

NOT AFRAID TO FACE THE MUSIC.—John W. Forney announces in a public speech that he will be a candidate for United States Senator, to fill the seat now occupied by Mr. Cowan, before the Legislature of Pennsylvania, on the ground that he is in favor of negro suffrage. He means that his party shall not dodge the great issue, as it is striving here and there to do.

## THE MODEL SEWING MACHINE.

(From the New York Herald.)

Prominent among the mechanical triumphs of this most ingenious age, common honesty compels us to notice the Empire Sewing Machine, commented as justly styled perfection itself. Useful as have been the various sewing machines, from time to time presented to the public, each one of them has been cursed with some radical defect, which detracts from general utility. Warned by the experience of his predecessors, the inventor of the Empire Machine has produced an instrument, combining all the advantages for which others are wanted, and obviating every defect which can be attributed to them by the most fastidious critic.

The Empire Machine is a marvellous combination of simplicity, economy and perfect workmanship, being durable, free from liability to get out of order, noiseless, and easy of operation. Its mechanical contrivance is such as to secure stability, freedom from accident, and accuracy as to workmanship. By the use of the patented shuttle and straight needle, it makes a stitch, which can neither rip nor unravel, while, at the same time, it can operate perfectly upon every species of material from leather to cambric, with threads of cotton, linen or silk, from the finest to the coarsest number.

As the Empire Machine is gradually supplanting its more antique rivals, no one in want of a more useful instrument of this description, be he or she tailor, coachmaker, dressmaker or seamstress, can do otherwise than secure these economical and inimitable machines, suited alike for family and manufacturing purposes.—The office of the Empire Manufacturing Co. is at No. 536 Broadway, New York City, where they are now supplying the Empire Machines at prices far below the real value of the instruments.—New York Herald.
